

Sealing Solutions for High Pressure Cleaners

Sealing Solutions for High Pressure Cleaners

Kastas offers a broad range of sealing solutions for cold and hot water high pressure cleaners with the technology to meet every high-pressure cleaning need.

At Kastas, we run detailed research, development and testing programs in cooperation with our customers, which ensure the verification and validation of each design and material development through industry and customer-specific standards. Specific development test programs are carried out in in-house test rigs to ensure and improve the performance of High Pressure Cleaner seals.
