

# PU8502 - New Generation Thermoplastic Polyurethane

High Performance, Abrasion Resistant, Long Service Life.

PU8502 is a new generation TPU, developed for various applications that require low compression set, hydrolysis resistance, abrasion resistance. The 85 Shore A TPU is mainly preferred in pneumatic applications and diaphragms with its advanced mechanical properties.

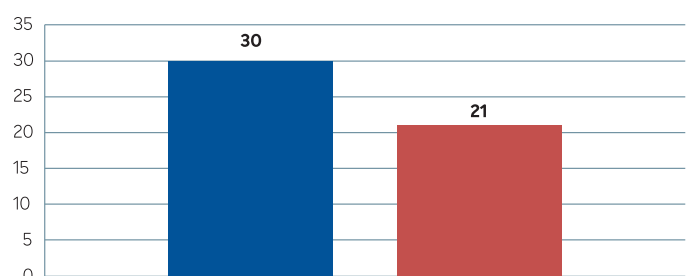

**Compression Set (%)**

ISO 815 24h @ 100°C

**Abrasion Loss (mm<sup>3</sup>)**

DIN 53 516 Abrasion

■ 80 Shore PU
